

Hafeli Staran & Christ, P.C. cares about our community. We engage in an array of public service activities, including sponsorships, presentations at legal education seminars for lawyers, businesses and individuals, and support for charitable and civic causes and events, including the Oakland Bar Foundation which funds various law-related charitable programs including the Oakland County Law Library and education of the public about the legal system.

Members of our firm have served in leadership roles for charitable, educational, religious and non-profit organizations, youth sports programs and parent-teacher organizations and actively contribute their time and energy to other community and civic activities to help enhance the quality of life in our community where we and our clients live and work.
